5581 Bano shower rail

5581 Bano shower rail

Combined grab bar

The Bano shower rail is a combined shower rail and grab bar. The Bano shower rail features an angled shape, which makes it extremely versatile. The shower rail is available angled to the left or to the right. Delivered without joints for improved hygiene and simpler installation. The grab bar is coated with antibacterial puro-coat for optimal grip. Bano supplies a moveable shower shelf specially designed for the shower rail and grab bar.

Bano shower head holder

Is specially designed so it can be moved up and down, this functionality ensure the ideal height irrespective of whether the user is standing up or sitting down.

Load tested up to 500kg.

Materials

• Anti-bacterial powder-coated aluminum, nylon and stainless-steel screws

• Shower head holder: nylon and ABS plastic
